- B. The down payment uses a special settlement type (OS 11).
- C. The down payment process uses periodic billing.
- D. The down payment value is a fixed amount or percentage.

Correct Answer: AD

---

### QUESTION 2

You use the same textelement in a sales order and in the subsequent delivery. What must you customize to ensure that changes to the sales order text are also visible in the delivery text? Choose the correct answer.

- A. Data transfer routine for texts
- B. Text type
- C. Text determination procedure
- D. Access sequence

Correct Answer: D

---

### QUESTION 3

When using new output management in SAP S/4HANA, how does the system process a BRF+ decision table to retrieve the required result? Choose the correct answer.

- A. Every row is processed in sequence. In each row, every condition column cell is processed from right to left. If the condition in each condition column cell is met, the field values in the result columns are returned.
- B. Every condition column is processed in sequence. In each condition column, every row is processed from top to bottom. If the condition in each condition column cell is met, the field values in the result columns are returned.
- C. Every row is processed in sequence. In each row, every result column cell is processed from left to right. If the condition in each result column cell is met, the field values in the condition columns are returned.
- D. Every row is processed in sequence. In each row, every condition column cell is processed from left to right. If the condition in each condition column cell is met, the field values in the result columns are returned.

Correct Answer: D

---

#### QUESTION 4

Your project requires that a new text element from the business partner master record is automatically copied into the header information in sales orders. What must you do? Choose Two correct answers.

- A. Create a condition master record for the new text type.
- B. Assign a text determination procedure to the sales document type.
- C. Assign the required text type with an appropriate access sequence to the text determination procedure.
- D. Assign a text determination procedure to the sales item category.

Correct Answer: AB

---

#### QUESTION 5

Your project requires confirmation of sales order quantities for certain materials even if the stock of those materials is currently below the safety stock level. Where do you configure this? Choose the correct answer.

- A. The Special Stock indicator in the Item category
- B. The Item Category group in the material master
- C. The Checking rule at transaction level
- D. The scope of the availability check

Correct Answer: D
