### QUESTION 1

For an account attached to a platform that requires Dual Control based on a Master Policy exception, how would you configure a group of users to access a password without approval.

- A. Create an exception to the Master Policy to exclude the group from the workflow process.
- B. Edit the master policy rule and modify the advanced `Access safe without approval` rule to include the group.
- C. On the safe in which the account is stored grant the group the `Access safe without audit` authorization.
- D. On the safe in which the account is stored grant the group the `Access safe without confirmation` authorization.

Correct Answer: A
