### QUESTION 1

Hyperledger Composer has the following two main components.

- A. Composer Framework and a Business Network Archive
- B. Composer Playground and a Business Network Configuration
- C. Composer Playground and a Business Network Archive
- D. Distributed Ledger and a Business Network Archive
- E. Distributed Ledger and Composer playground

Correct Answer: C

There are two parts: 1. Business Network Archive which essentially captures the core data in a business network, including the business model, transaction logic, and access controls, the Business Network Archive packages these elements up and deploys them to a runtime. Business Network Archive files are stored as ".bna" files. AND 2. Composer Playground which is web-based tool allows developers to learn Hyperledger Composer, model out their business network (domain), test that network, and deploy that network to a live instance of a blockchain network. The playground keeps the development model in browser storage, allowing them to be easily uploaded or downloaded.

---

### QUESTION 2

What is a transaction request sent from a client or admin user to one or more peers in a network?

- A. Chaincode
- B. Proposal
- C. Update
- D. RPC

Correct Answer: B

Proposal is A transaction request sent from a client or admin user to one or more peers in a network; examples include deploy, invoke, query, or configuration request. <https://fabrictestdocs.readthedocs.io/en/latest/glossary.html>

---

### QUESTION 3

Blockchain services consists of three major components. What are they? (Select three.)

- A. Consensus Manager
- B. Distributed Ledger
- C. Peer to Peer Protocol
- D. Reputation Manager

#### E. Membership Services

Correct Answer: ABC

1.

P2P Protocol is implemented over HTTP/2 standards and uses Google RPC.. P2P components defines messages used by peer nodes, from point to point to multicast.

2.

Distributed Ledger manages the world state and the transaction log in the blockchain.

3.

Consensus Manager defines the interface between the consensus algorithm and the other Hyperledger components.

---

#### QUESTION 4

Hyperledger Fabric Consensus is planned out into 3 phases. Which one is NOT a phase?

A. Ordering

B. Endorsement

C. Voting

D. Validation

Correct Answer: C

---

#### QUESTION 5

What services provides the capability to provide authorized entities the means to link transactions of individual users or groups of users according to the affiliation or roles?

A. Authentication Services

B. Registration Services

C. Identity Management

D. Auditability Services

Correct Answer: D
