-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

### QUESTION 1

Your customer is an enterprise that is focused on financial sectors.

What type of blockchain would this customer likely want specified for their enterprise?

- A. Permissionless
- B. Decentralized
- C. Hybrid
- D. Permissioned

Correct Answer: D

Sometimes referred to as "private" blockchains, you are required to have some sort of permission to access any or parts of that blockchain. There are a multitude of variants and hybrid permissioned/ permissionless blockchains that exist.

**QUESTION 5**

The gas price is a value set by the creator of the blockchain transaction? (Select best answer.)

- A. FALSE
- B. Its Negotiable
- C. TRUE

Correct Answer: C

The gas price is a value set by the creator of the transaction, who has to pay `gas_price * gas` up front from the sending account. If some gas is left after the execution, it is refunded in the same way. If the gas is used up at any point (i.e. it is negative), an out-of-gas exception is triggered, which reverts all modifications made to the state in the current call frame.
