## QUESTION 5

### SCENARIO

Please use the following to answer the next question:

Miraculous Healthcare is a large medical practice with multiple locations in California and Nevada. Miraculous normally treats patients in person, but has recently decided to start offering telehealth appointments, where patients can have virtual appointments with on-site doctors via a phone app.

For this new initiative, Miraculous is considering a product built by MedApps, a company that makes quality telehealth apps for healthcare practices and licenses them to be used with the practices' branding. MedApps provides technical

support for the app, which it hosts in the cloud. MedApps also offers an optional benchmarking service for providers who wish to compare their practice to others using the service.

Riya is the Privacy Officer at Miraculous, responsible for the practice's compliance with HIPAA and other applicable laws, and she works with the Miraculous procurement team to get vendor agreements in place. She occasionally assists

procurement in vetting vendors and inquiring about their own compliance practices, as well as negotiating the terms of vendor agreements. Riya is currently reviewing the suitability of the MedApps app from a privacy perspective.

Riya has also been asked by the Miraculous Healthcare business operations team to review the MedApps' optional benchmarking service. Of particular concern is the requirement that Miraculous Healthcare upload information about the appointments to a portal hosted by MedApps.

Which of the following would accurately describe the relationship of the parties if they enter into a contract for use of the app?

- A. Miraculous Healthcare would be the covered entity because its name and branding are on the app; MedApps would be a business associate because it is hosting the data that supports the app.
- B. MedApps would be the covered entity because it built and hosts the app and all the data; Miraculous Healthcare would be a business associate because it only provides its brand on the app.
- C. Miraculous Healthcare would be a covered entity because it is the healthcare provider; MedApps would also be a covered entity because the data in the app is being shared with it.

D. Miraculous Healthcare would be the covered entity because it is the healthcare provider; MedApps would be a business associate because it is providing a service to support Miraculous.

Correct Answer: D
