### QUESTION 1

DRAG DROP

Drag the following Security Engineering terms on the left to the BEST definition on the right.

Select and Place:

#### Security Engineering

Security Risk Treatment

#### Definition

The method used to identify the confidentiality, integrity, and availability requirements for organizational and system assets and to characterize the adverse impact or consequences should the asset be lost, modified, degraded, disrupted, compromised, or become unavailable.

Threat Assessment

A measure of the extent to which an entity is threatened by a potential circumstance or event, the adverse impacts that would arise if the circumstance or event occurs, and the likelihood of occurrence.

Protection Needs

The method used to identify and characterize the dangers anticipated throughout the life cycle of the system.

Risk

The method used to identify feasible security risk mitigation options and plans.

Correct Answer:

Security Engineering

Definition

Protection Needs

The method used to identify the confidentiality, integrity, and availability requirements for organizational and system assets and to characterize the adverse impact or consequences should the asset be lost, modified, degraded, disrupted, compromised, or become unavailable.

Risk

A measure of the extent to which an entity is threatened by a potential circumstance or event, the adverse impacts that would arise if the circumstance or event occurs, and the likelihood of occurrence.

Threat Assessment

The method used to identify and characterize the dangers anticipated throughout the life cycle of the system.

Security Risk Treatment

The method used to identify feasible security risk mitigation options and plans.

**QUESTION 2**

DRAG DROP

In which order, from MOST to LEAST impacted, does user awareness training reduce the occurrence of the events below?

Select and Place:

Event		Order
Disloyal employees		1
User instigated		2
Targeted infiltration		3
Virus infiltrations		4

Correct Answer:

Event		Order
	Disloyal employees	1
	User-instigated	2
	Targeted infiltration	3
	Virus infiltrations	4

**QUESTION 3**

DRAG DROP

Match the name of access control model with its associated restriction.

Drag each access control model to its appropriate restriction access on the right.

Select and Place:

**Access Control Model**

**Restrictions**

Mandatory Access Control		End user cannot set controls
Discretionary Access Control(DAC)		Subject has total control over objects
Role Based Access Control (RBAC)		Dynamically assigns permissions to particular duties based on job function
Rule Based Access Control		Dynamically assigns roles to subjects based on criteria assigned by a custodian

Correct Answer:

**Access Control Model**

**Restrictions**

	Mandatory Access Control	End user cannot set controls
	Discretionary Access Control(DAC)	Subject has total control over objects
	Role Based Access Control (RBAC)	Dynamically assigns permissions to particular duties based on job function
	Rule Based Access Control	Dynamically assigns roles to subjects based on criteria assigned by a custodian

**QUESTION 4**

**DRAG DROP**

During the risk assessment phase of the project the CISO discovered that a college within the University is collecting Protected Health Information (PHI) data via an application that was developed in-house. The college collecting this data is

fully aware of the regulations for Health Insurance Portability and Accountability Act (HIPAA) and is fully compliant.

What is the best approach for the CISO?

Below are the common phases to creating a Business Continuity/Disaster Recovery (BC/DR) plan. Drag the remaining BC\DR phases to the appropriate corresponding location.

Select and Place:

- Risk Assessment
- Business Impact Analysis
- Mitigation Strategy Development
- BC\DR Plan Development
- Training, Testing & Auditing
- Plan Maintenance

Correct Answer:

Plan Maintenance

### QUESTION 5

#### HOTSPOT

Identify the component that MOST likely lacks digital accountability related to information access. Click on the correct device in the image below.
