QUESTION 3

When unloading data with the COPY INTO command, what is the purpose of the PARTITION BY parameter option?

A. To sort the contents of the output file by the specified expression.

B. To delimit the records in the output file using the specified expression.

C. To include a new column in the output using the specified window function expression.

D. To split the output into multiple files, one for each distinct value of the specified expression.

Correct Answer: D

QUESTION 4

What actions does the use of the PUT command do automatically? (Choose two.)

A. It creates a file format object.

B. It uses the last stage created.

C. It compresses all files using GZIP.

D. It encrypts the file data in transit.

E. It creates an empty target table.

Correct Answer: CD

QUESTION 5

True or False: Snowflake bills for a minimum of five minutes each time a Virtual Warehouse is started.

A. True

B. False

Correct Answer: B
