Which of the following would you least expect to see addressed in the test plan?

- A. Availability
- B. Safety
- C. Portability
- D. Reliability

Correct Answer: C

---

### QUESTION 3

During test process improvement it is recommended to use standards where possible. Standards originate from various sources and they cover different subjects in relation to testing.

Pick TWO sources of software standards, useful to software testing from the ones mentioned below.

- A. ISO 9126-1 `Software engineering- Product quality Part 1: Quality model\` is an international standard, that provides a basis on which to define quality assurance solutions.
- B. ISA 4126-1 `Software engineering- Product quality Part 1: Quality model\` is an international standard, that provides a basis on which to define quality assurance solutions.
- C. BS-7925-2 `Software testing. Software component testing is a national standard used internationally. It covers a number of testing techniques that may be useful both on component testing level and on system testing level.

D. SY-395-01 `Standard for East Coast Hospital software` is a regional standard adapted from a national one. Besides hospital software, this standard ought to be used also by other types of software system in the region.

E. IEEE 829 `standard for software test documentation` is an international standard to be following mandatory by all testing origination regardless of lifecycle models.

Correct Answer: AC

---

#### QUESTION 4

Which of the following would be the TWO most appropriate examples of entry criteria documented in the system integration test plan?

- A. The percentage of decision coverage achieved during unit testing.
- B. The availability of the latest version of the capture-replay tool (for testing the interface with the newly developed test management tool).
- C. The sign-off of a performance test software release note (test item transmittal report) by both development and testing showing that system performance meets the specified acceptance criteria.
- D. The percentage of acceptance test procedures scheduled for execution.
- E. The percentage of requirements coverage achieved during system integration test.

Correct Answer: AB

---

#### QUESTION 5

Based on the information given in the scenario, identify how the team could be improved most effectively?

- A. By providing training in the payroll domain
- B. By providing a workshop on test design techniques
- C. By providing specific training on the systems being tested
- D. By providing training on reviewing requirements

Correct Answer: B

---
