Correct Answer: B

Testlet 1

Topic 6, Scenario 6, V1 "Independent Test Team"

XYZ is a Swedish company and the company language is local and all system development documentation is done in the local language.

As a test manager you are currently leading an independent test team of 4 people to system test the payroll functionality. The 4 members of staff of described below:

-

John is one of the senior testers. He has been working for the company the longest and has a good network of contacts. He is confident and tries to bring other team members together to promote team discussions. He is sometimes considered to be manipulative and is often seen to delegate personal work.

-

Sue is a senior tester. She always seems to be busy and often seems to have too much work to do. However, she gets her work done, regardless of what it takes. She is often inclined to worry unduly and sometimes considered to be argumentative and blunt. She is conscientious and searches out errors and omissions. She always delivers on time.

-

Steve is a tester. He is serious minded and often looks ahead. When he is given problems to solve he often looks at all options before deciding. He needs to be a little bit more diplomatic though in his approach to other people because his attitude often has a negative affect when trying to inspire others. He is good person discuss ideas with. Steve used to work as a business analyst on the payroll department.

-

Vicki is a test analyst. She is the newest member of the team and has been employed for her automation skills. Vicki is shown to be dedicated to automation, having spent the past 5 years developing the necessary skills in automation tools. Her view on testing seems too limited; she believes automation is the only way forward. Both John and Sue are highly experienced at finding defects based on their experience with the system and domain knowledge.

QUESTION 3

Which of the following statements is correct?

- A. Because independence of testers enhanced quality and improves testing, test planning should not take into account constraints from the development team.
- B. Since test planning is influenced by the developers work, test planning should not start before the entire project plan of the development team is available
- C. Test planning is an activity that is only performed at the very beginning of the project
- D. Test planning is influenced by, among others, the scope of testing, the risks and the availability of resources.

Correct Answer: A

QUESTION 4

Statement Coverage will not check for the following:

- A. Missing Statements
- B. Unused Branches
- C. Dead Code
- D. Unused Statement

Correct Answer: A

QUESTION 5

Which of the following type of defect would NOT be typically found by using a static analysis tool?

- A. A variable is defined but is then not used
- B. A variable is used in a calculation before it is defined

C. A variable has the wrong numeric value passed into it

D. A variable is used but not declared

Correct Answer: C
