QUESTION 3

When using field matching which is the best approach if using First Name as a match field?

- A. Never use First Name as it is not necessary
- B. No standardization of First Name field is necessary
- C. Use the Edit Distance strategy
- D. Create Soundex or NYSIIS value for the First Name and use it in match

Correct Answer: D

QUESTION 4

With regard to a Basic Import which of the following is FALSE?

- A. Once added, the target will display resolution for each folder imported.
- B. A conflict resolution can be selected to apply to all imported objects.
- C. Default is replace, options include rename or reuse.
- D. The import can consist of an XML file and a Zip file containing the reference tables

Correct Answer: C

QUESTION 5

Which are correct statements for IDQ grouping and matching? Choose 2 answers

- A. IDQ field level matching does not utilize grouping
- B. When field level matching is performed, the records within each group will be compared against each other
- C. When field level matching is performed, matching will be performed across multiple groups in a single match transformation.
- D. When field level matching is performed, matching will not be performed across groups, therefore it is imperative grouping is performed on a complete and accurate field(s)

Correct Answer: AD
