QUESTION 1

In a Dell EMC Unity environment, how many Disk Partnership Groups will be created using all the disks shown in the exhibit?

- A. 1
- B. 2
- C. 3
- D. 5

Correct Answer: B

QUESTION 2

What is the purpose of the M.2 SSD in a Dell EMC Unity storage system?

- A. Provides a de-staging area for write cache
- B. Holds the Unity operating system and configuration
- C. Allows for an orderly shutdown and cache de-staging
- D. Provides a location to cache active data for fast retrieval

Correct Answer: D

Explanation: the memory contents of the SP's cache is written to the M.2 SSD device so it can be recovered once the SP is restored. Reference: <https://www.emc.com/collateral/white-papers/h15084-dell-emc-unity-introduction-to-theplatform.pdf>

QUESTION 3

What is the Dell EMC best practice for sizing and designing an SC Series solution?

- A. Size for capacity, Data Progression should always meet performance needs

- B. Size for performance first and capacity second
- C. Drive amount for capacity should meet performance needs
- D. Drive amount required for performance should always meet capacity needs

Correct Answer: C

QUESTION 4

A Dell EMC SC Series customer has purchased the Storage Optimization bundle and wants to ensure that Data Progression works efficiently. Which snapshot schedule conforms to best practice when using Data Progression?

- A. Daily snapshot with an expiration of no more than 23 hours
- B. Daily snapshot with an expiration of exactly 24 hours
- C. Daily snapshot with an expiration of at least 25 hours
- D. Daily snapshot configured with no expiration time

Correct Answer: B

QUESTION 5

You are designing a Dell EMC Unity solution for a customer who wants to accommodate multiple database instances on block storage. In addition, they want to protect the data with snapshots and AppSync using a Consistency Group.

What is the maximum number of LUNs that can be associated with the Consistency Group?

- A. 10
- B. 40
- C. 35
- D. 50

Correct Answer: D

Explanation: An addressable instance of LUN storage that can contain one or more LUNs (up to 50) and is associated with one or more attached hosts. Reference: <https://www.emc.com/collateral/TechnicalDocument/docu88302.pdf>
