QUESTION 1

What should be taken into account most when prioritizing tasks according to DevOps practices?

- A. How long the task has waited
- B. How much the team likes the task
- C. How much value the task adds
- D. How much work the task takes

Correct Answer: C

QUESTION 2

A company is not yet using DevOps practices. The team notices a problematic accumulation of technical debt. One of the team members suggests implementing DevOps practices to solve this problem.

Which DevOps practices support reducing technical debt?

- A. Constant refactoring and eliminating previous bottlenecks
- B. Continuous delivery and promoting pair programming
- C. Continuous feedback and implementing a deployment pipeline

Correct Answer: A

QUESTION 3

Your team uses continuous delivery.

What are two reasons to keep the batch size small? (Choose two.)

- A. So that each team member can get their own batch
- B. So that root causes of problems can be identified and resolved quickly
- C. So that the product owner can report back to the customer
- D. So that the product owner has a good idea of what is delivered when
- E. So that there is room for Kaizen blitzes in between work

Correct Answer: BD
