QUESTION 1

If an Isilon has been integrated into an existing Hadoop environment, what explains how the HDFS data will be distributed?

- A. HDFS data on Isilon and computations will be handled by Hadoop
- B. HDFS data remains on Hadoop; computations is handled by Isilon
- C. Files are stored in a specialized HDFS compatible file system format on the Isilon cluster
- D. MapReduce on the Isilon allows data to be distributed across both platforms

Correct Answer: A

QUESTION 2

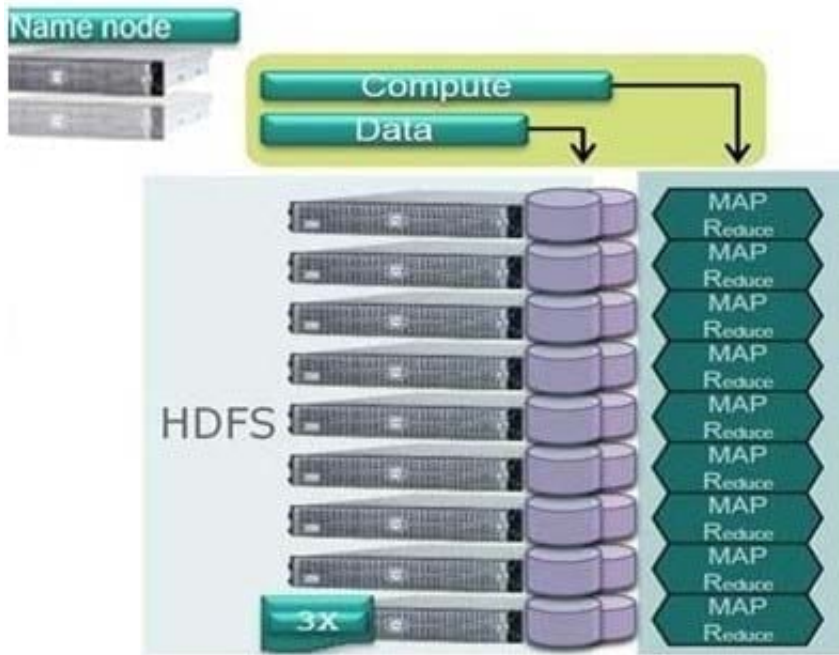

What can be configured on the SmartPools page in the web administration interface of an Isilon cluster?

- A. GNA, VHS, L3 cache, Global Spillover
- B. Address pools, L2 cache, tiers, snapshot storage
- C. L1 cache, file pool policies, VHS, notifications
- D. Data access pattern, protection setting, VHS, deduplication

Correct Answer: A

QUESTION 3

The exhibit shows the components of a conventional Hadoop environment.

Which component holds the location information for every file in the cluster?

- A. NameNode: Can comprise one or two physical servers
- B. Compute: A logical component which runs on each node
- C. Data: A physical component distributed across the cluster
- D. 3X mirror: The first three nodes in the cluster configured as a 3X mirror

Correct Answer: A

QUESTION 4

What will occur when an Isilon node pool is below the recommended protection level?

- A. CELOG will generate an underprotected event
- B. File will be striped to an additional drive
- C. File will be mirrored
- D. An additional copy of the metadata will be stored on the SSD drives

Correct Answer: A

QUESTION 5

An Isilon cluster has been configured with an autocommit period of 30 minutes for all compliance

SmartLock directories. However, the storage administrator has noticed that files recently written to the

folders can be deleted or modified.

Why is this happening?

- A. Offset time for autocommit has not been met
- B. Compliance clock is out of sync with the autocommit function
- C. Offset time for autocommit has been met
- D. Manual commit must be used for all compliance SmartLock directories

Correct Answer: A
