- A. offline upgrade
- B. online upgrade
- C. rolling upgrade
- D. rollback upgrade

Correct Answer: B

---

#### QUESTION 2

A customer has recently purchased a HCP 500. You will be performing the install. Which two describe how many LUNs per node are required for installation? (Choose two.)

- A. 1 OS LUN
- B. 4 OS LUNs
- C. 2 data LUNs
- D. 4 data LUNs

Correct Answer: AC

---

#### QUESTION 3

A customer is purchasing a HCP configuration to support 400,000,000 objects. Search is not required. What is the minimum required configuration for this customer?

- A. HCP 300 with 4 storage nodes
- B. HCP 500 with 1 storage node
- C. HCP 300 with 40 storage nodes
- D. HCP 500 with 10 storage nodes

Correct Answer: A

---

#### QUESTION 4

A customer has integrated the HCP tenant with Enterprise Vault 9.0 (EV9) for Microsoft Exchange 2007.

The EV9 server reads and writes from the HCP without any problem. The

customer would like to grant read access to a few users from certain machines for EV9 backup objects.

Which two actions should the customer perform? (Choose two.)

- A. Configure the proper CIFS and NFS settings on the HCP.
- B. Configure the proper settings on the EV9.
- C. Configure the proper HTTP settings on the HCP.
- D. Configure the proper SMTP settings on the HCP.

Correct Answer: BC

---

#### QUESTION 5

Your customer wants to use the duplicate elimination service of the HCP. They require that duplicates get eliminated across multiple namespaces. What must be considered when configuring the system?

- A. The duplicate elimination service only applies to the default namespace.
- B. The namespaces must have the same DPL implementation.
- C. The duplicate elimination service only applies to the HCP namespaces.
- D. The namespaces must be in the same storage node.

Correct Answer: B
