QUESTION 1

A customer is purchasing another similar company, but there is no plan to transition or hire their IT staff. The current IT is understaffed and new and capable candidates are difficult to find. The IT manager realizes that the combined environment will not support the new workload.

Which advantage of moving to a converged infrastructure should you emphasize to the IT manager during your proposal?

- A. Aligns traditional IT technology silos into adaptive pools that can be shared by any application.
- B. Improves the time to delivery of cloud-provided resources, but increases the time of delivery to internal customers.
- C. Improves ROM update time and decreases the time available for ongoing patch management.
- D. Allows the customer to standardize on specific cloud solutions to improve efficiency.

Correct Answer: A

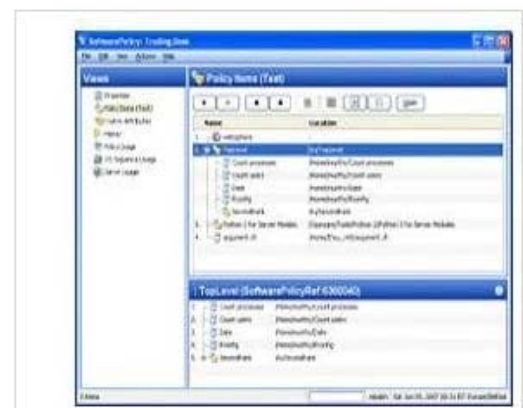

QUESTION 2

Click the Task button. Click on the portal a customer uses to monitor services, events and processes.

Hot Area:

Click on the portal a customer uses to monitor services, events and processes.

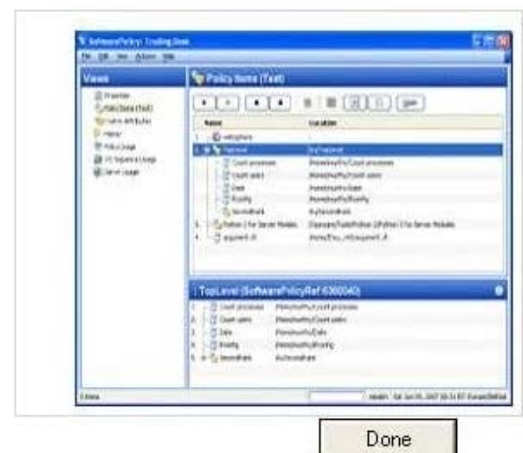

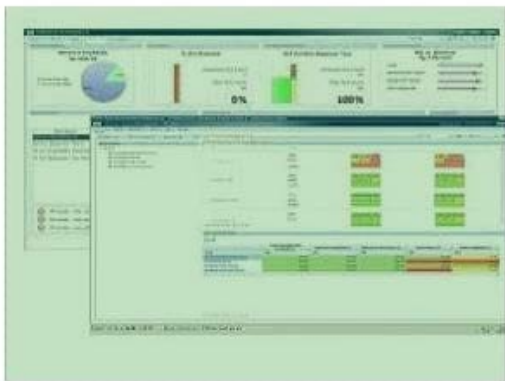

Done

Correct Answer:

Click on the portal a customer uses to monitor services, events and processes.

QUESTION 3
