QUESTION 1

Why do HP t310 Zero Clients deliver amazing performance and require no patches or updates?

- A. Because they use hardware-based encoding technology for PCoIP protocol
- B. Because the operating system is hard coded into the AMD processor
- C. Because they use hardware-based security for IP packet checking
- D. Because the operating system is refreshed when the system is turned on

Correct Answer: D

QUESTION 2

Who would benefit most from HP Velocity?

- A. Remote workers
- B. Task workers
- C. Intranet users
- D. LAN users

Correct Answer: D

QUESTION 3

A customer wishes to know if a particular USB scanner device will work with a t520 thin client running ThinPro, passing through to a VMware View/Horizon virtual machine. The USB device has not been tested by HP previously, and you do not have a VMware back-end to test with. What should you do?

- A. Promise the customer that the USB device will just work and that they do not need to worry.
- B. Have the customer ship you an extra USB device and test it yourself.
- C. Suggest that they purchase the higher-cost t520 with Windows Embedded 7 instead.
- D. Send the customer an appropriate demo t520 and have them test the USB device in a proof-of-concept.

Correct Answer: D

QUESTION 4

What are HP Easy Tools?

- A. Local setup and configuration tools
- B. Network performance tools
- C. Diagnostic and access tools
- D. Reporting and management tools

Correct Answer: A
