QUESTION 1

Which statement most accurately describes the role of an IT organization in the delivery of the "New Style of IT"?

- A. IT organizations merely build applications according to specs and have little or no role in the actual design of the application.
- B. IT organizations demonstrate value to the business by managing the infrastructure that keeps the lights on
- C. Quite often, IT is seen as a bottleneck to the business, so the business outsources much of its business application development.
- D. Quite often IT organizations are re-inventing "the business"; they enable business agility by being agile.

Correct Answer: D

QUESTION 2
