QUESTION 1

Place the steps of the basic TruClient workflow in the correct order.

Select and Place:

The screenshot shows a drag-and-drop interface with a list of steps on the left and a target area on the right. The steps are:

- Replay VUser in Load Mode
- Replay basic script
- Enhance script (Modify steps, Create parameters, Insert flow control)
- Record business process interactively in browser
- Configure run-time settings and global browser configuration settings for recording
- Replay VUser

On the right, there are two circular arrows: a right-pointing arrow (>) and a left-pointing arrow (<).

Correct Answer:

The screenshot shows the same drag-and-drop interface, but the steps are now arranged in the correct order in the target area on the right:

- Enhance script (Modify steps, Create parameters, Insert flow control)
- Replay basic script
- Replay VUser
- Configure run-time settings and global browser configuration settings for recording
- Record business process interactively in browser
- Replay VUser in Load Mode

QUESTION 2

Which LoadRunner component provides the functionalities to create graphs and reports that you can use to correlate system information and identify bottlenecks and performance issues?

- A. VuGen - Protocol Advisor
- B. Controller
- C. Analysis

D. Monitor Over Firewalls (MoFW)

Correct Answer: D

QUESTION 3

Which API Function Call connects to one of multiple Virtual Table Server (VTS) instances?

- A. Pvc1_1 = vtc_connect (myserver, 8888, VTOPT_KEEP_ALIVE);
