## QUESTION 2

A storage integrator is installing an HPE MSA 2042 into a remote location as a part of warehouse automation solution. The site has no IT staff and warehouse employees will not be granted access to the location where the MSA will be installed. The customer is concerned about the inability to control individual AC power outlets connected to the MSA.

Which HPE power delivery equipment can be added to the solution to address these requirements? (Choose two.)

- A. HPE G2 Metered and Switched PDU
- B. HPE Standard Series G2 Basic PDU
- C. HPE iPDU
- D. HPE G2 Metered PDU

Correct Answer: CD

### QUESTION 3

Refer to the exhibit.

```
This command takes several minutes to complete execution.
storage discovery successfully completed
# hardware add storage
This command takes several hours to complete execution.
storage addition successfully started
# system show status
Status
-----
Adding 1,099.51GB...
Service Sets Status Notes
-----
#
```

A storage integrator is deploying an HPE StoreOnce VSA.

Which command can be used to find available storage capacity before it can be added in the StoreOnce console?

- A. hardware setup storage
- B. hardware run setup
- C. hardware discover storage
- D. hardware discover disks

Correct Answer: C

### QUESTION 4

A storage integrator wants to change the tiering affinity of an existing volume on an HPE MSA 1040/2040 with GL220 and higher. How can this goal be achieved?

- A. Change volume tier preference of the volume.
- B. Migrate volume using new tiering settings.
- C. Perform a clone operation with a new automatic tiering rule.
- D. Delete the volume, and create a new volume with the correct automatic tiering rule.

Correct Answer: A

### QUESTION 5

A customer with an HPE 3PAR 8200 unit has concerns about tracking missing updates and where to find the information on when upgrades were done in the past. With previous storage systems the customer ran out of storage before knowing that they needed to order more storage.

What can the integrator do to help the customer with these concerns?

- A. Use the 3PAR Service Processor for Insplore event notification.
- B. Enable StoreFront Remote integration.
- C. Schedule SSMC Overview reports for the customer.
- D. Link the 3PAR Service Agreement ID to customer's HPE passport account for storage reporting.

Correct Answer: C
