QUESTION 2

How does the HPE StoreVirtual VSA storage platform scale performance and capacity?

A. eliminates the need for storage controllers

B. enables access through multiple protocols

C. aggregates all resources into a single storage pool

D. recreates storage pools on multiple devices

Correct Answer: D

QUESTION 3

In an ISCSI based storage system proof-of-concept project, the customer is not satisfied with the performance of their video streaming application. What would you recommend to the customer to optimize the existing environment?

A. Enable hardware iSCSI initiator

B. Enable jumbo frames on required components.

C. Increase the switch buffer to buffer credits.

D. Consolidate the heterogeneous switches in the network.

Correct Answer: B

QUESTION 4

Which HPE storage solution offer a two-tier backup solution for hybrid cloud with optimal recovery time? (Choose two.)

A. Simplivity 380

B. Nimble SF series

C. 3PAR 8000 series

D. StoreOnce with Catalyst

E. Nimble CS series

Correct Answer: AD

QUESTION 5

Which value does a Nimble solution provide in addition to other HPE storage solutions?

A. Flat support pricing for all hardware components

B. Future-proofed for newer technologies

C. All-inclusive software licensing over 5 years and additional capacity upgrades

D. Upfront option for free controller upgrade after 3 years

Correct Answer: B
