### QUESTION 1

What is used to migrate data between nodes in an HPE StoreVirtual VSA environment?

- A. Network RAID
- B. Peer Motion
- C. SmartClone
- D. Remote Copy

Correct Answer: B

---

### QUESTION 2

A large enterprise is experiencing exponential data growth of their existing Oracle databases. They are concerned about their increasing backup windows and the risks of non-compliance with recovery time objectives in case of data corruption in primary storage. Their primary storage is an HPE 3PAR StoreServ 8400, and their backup target is an HPE StoreOnce System.

Which HPE storage solution allows the customer to mitigate this risk?

- A. Catalyst in-flight compression
- B. HPE 3PAR Remote Copy
- C. HPE StoreOnce Unified deduplication
- D. RMC Express Protect

Correct Answer: D

---

### QUESTION 3

A customer recently acquired another small company and found that the existing infrastructure was outdated and costly to maintain. They need to put a complete infrastructure solution in place that minimizes the footprint in the data center as

quickly as possible.

Which solution should you recommend?

- A. SimpliVty380
- B. Converged Systems 700
- C. Synergy 12000
- D. BladeSystem 7000

---

Correct Answer: C

---

#### QUESTION 4

A customer with a restricted budget has an existing HPE 3PAR StoreServ 8200 using 10k Fast Class and Nearline drives. Because of the implementation of new applications, the workload has shifted to be read intensive. Therefore, they want to increase the read I/O performance.

What should they add to their environment?

- A. a tier with 15K Fast Class 600 GB drives for new cpg, configure AO policy to take advantage of new resources.
- B. two 400Gb SSD drives and enable Adaptive Flash Cache
- C. a tier with 15k Fast Class drives and implement thin provisioned deduplicated virtual volumes
- D. a tier of SSD and implement thin provisioned virtual volumes

Correct Answer: B

---

#### QUESTION 5

A customer has a new HPE Nimble HF-series array and is facing latency issues for his 2TB ERP database. What would be a design approach to solve this issue?

- A. Add additional SSD drives as cache to the system and PIN the volume.
- B. Change RAID of the drives to RAID 1 and setup quality of service for the volume.
- C. Perform controller upgrade to an HPE Nimble CS5000 storage system.
- D. Enable storage tiering on the system and map the volume to the new tier.

Correct Answer: A
