QUESTION 1

How does the HPE StoreVirtual VSA storage platform scale performance and capacity?

- A. eliminates the need for storage controllers
- B. enables access through multiple protocols
- C. aggregates all resources into a single storage pool
- D. recreates storage pools on multiple devices

Correct Answer: D

QUESTION 2

During a technology workshop, the customer asks about differences between converged and Fibre Channel switches.

What would be a benefit of using FlexFabric switches in a fibre channel storage environment?

- A. support for six Ethernet and two Fibre Channel, or six Ethernet and two iSCSI or eight Ethernet adapters per server
- B. zones can be configured for QoS with high, medium, and low priorities within a fabric on a zone by zone basis
- C. in-flight compression and encryption provides efficient link utilization and security
- D. support for combining multiple physical switches into one virtual switch with a single IP address

Correct Answer: D

QUESTION 3

A customer migrates their infrastructure from a 3rd party storage to an HPE Nimble environment. During an architecture workshop, you discuss VMvision with the customer and the system engineer. Which statement is correct when implementing performance monitoring using VMvision?

- A. SNMP trap service has to be configured to send traps to Infocentris and integrate performance data using VMvision.
- B. VMvision is an agentless integration into Infocentris and needs only the vCenter Server Appliance credentials to connect.
- C. VMware vSphere Storage APIs Array Integration (VAAI) has to be configured to combine storage and VM performance metrics.
- D. HPE Nimble Service Processor collects relevant per-VM performance data and sends them using SSL port 443 to VMvision.

Correct Answer: C

QUESTION 4

A customer recently acquired another small company and found that the existing infrastructure was outdated and costly to maintain. They need to put a complete infrastructure solution in place that minimizes the footprint in the data center as

quickly as possible.

Which solution should you recommend?

- A. SimpliVty380
- B. Converged Systems 700
- C. Synergy 12000
- D. BladeSystem 7000

Correct Answer: C

QUESTION 5

Which fabric design is shown?

- A. meshed
- B. single fabric
- C. cascaded
- D. core-edge

Correct Answer: A
