**QUESTION 1**

Which tasks should you perform during the prepare and interview stages of a consulting engagement? (Select two.)

- A. Design the solution that meets the customer's needs and conveys value.
- B. Determine who to add to your team to produce a winning proposal.
- C. Listen to what the customer has to say.
- D. Determine which solutions are closely aligned with the customer's business needs.
- E. Research the company and people, and discover areas of concern.

Correct Answer: CE

QUESTION 2

You are helping a customer optimize HPE 3PAR StoreServ 8000 series arrays. The current configuration across all arrays gives the same service level access. The customer needs to control the IOPS, bandwidth, and service time based on the various virtual volumes in the array.

What should you recommend to this customer? (Select two.)

- A. Group the various virtual volumes into Wsets, and set the priority by each Wset.
- B. Add the 3PAR Priority Optimization license to the array.
- C. Enable the Priority Optimization that is included in the base license.
- D. Use Dynamic Optimization to balance the workload for required virtual volumes.
- E. Use Adaptive Optimization to provide quality of service by each hostset.

Correct Answer: AB

QUESTION 3

Which HPE management tool provides a single, integrated management environment for a converged infrastructure?

- A. HPE OneView
- B. HPE StoreOnce RMC
- C. HPE 3PAR SSMC
- D. HPE IMC

Correct Answer: A

QUESTION 4

What is a business benefit of HPE hyper-converged systems?

- A. larger footprint
- B. faster deployment
- C. lower latency
- D. fewer choices

Correct Answer: B
