**QUESTION 1**

You begin your first presentation to a customer by positioning HPE OneView as a converged management tool. The customer requires the use of the VMware vSphere API for Storage Awareness (VASA) integration in their future management solutions.

Which HPE storage products can be used in your design to support this customer's needs? (Select two.)

- A. HPE ConvergedSystems
- B. HPE StoreEver
- C. HPE StoreVirtual
- D. HPE StoreOnce
- E. HPE 3PAR StoreServ

Correct Answer: CE

QUESTION 2

Which object is the unit of failover for HPE 3PAR StoreServ File Persona?

- A. File Provisioning Group
- B. File Share
- C. File Store
- D. Virtual File Server

Correct Answer: D

QUESTION 3

While preparing to demonstrate SSMC functionality with an HPE 3PAR StoreServ 7400, you notice that the System Reporter templates for the PoC system are different from those you have

IT Certification Guaranteed, The Easy Way! seen for other arrays. While examining the SSMC User Guide, you discover that a System Reporter license is still needed for some System Reporter functionality in SSMC

Which SSMC System Reporter functionality requires the array to have a System Reporter license? (Select two.)

- A. online performance reporting
- B. historical performance reporting
- C. performance alerts
- D. export functionality

E. web-based reporting

Correct Answer: DE

QUESTION 4

You discuss a backup and recovery strategy with the customer. You notice that the customer is not clear about the differences between backup and archive strategy terms.

? -> remove from product data

? -> set recovery time objective

? -> satisfy compliance requirements

? -> augment with deduplication ? -> periodically overwrite deduplicate copies

Match the term to the appropriate strategy. (Select five.)

A. archive -> remove from product data

B. backup -> set recovery time objective

C. archive -> satisfy compliance requirements

D. archive -> augment with deduplication

E. backup -> periodically overwrite deduplicate copies

F. backup -> remove from product data

G. archive -> set recovery time objective

H. backup -> satisfy compliance requirements

I. backup -> augment with deduplication

J. archive -> periodically overwrite deduplicate copies

Correct Answer: ABCDE

QUESTION 5

You are working with a junior storage administrator to document an existing SAN implementation. You must determine if an HPE 3PAR StoreServ 7000 is cabled correctly.

The admin only has the 3parcust credentials.

How can you verify that the array is correctly cabled?

A. Check the Storage Systems section in HPE OneView.

- B. Execute a Checkhealth through SPOCC.
- C. Use the HPE SAN Visibility tool.
- D. Use HPE 3PAR StoreServ Management Console (SSMC) with read-only rights.

Correct Answer: B
