QUESTION 1

You are demonstrating management of HPE 3PAR StoreServ arrays using HPE OneView. When you attempt to add an array, you cannot attach to it. What must you do to resolve this problem?

- A. Reboot the HPE 3PAR StoreServ nodes, one at a time.
- B. Restart the RESTful Application Program Interface (REST API).
- C. Reboot the HPE OneView appliance.
- D. Restart the Web Services Application Program Interface (WSAPI).

Correct Answer: D

QUESTION 2

A customer needs a disaster-tolerant replication solution for its Oracle database. The database consists of only one 500 GB volume. You recommend a Remote Copy solution based on HPE 3PAR StoreServ 8200 systems.

Which statement is correct when using multiple RCIP or Fibre Channel ports for this design?

- A. Synchronous replication mode must be used
- B. Asynchronous streaming replication mode must be used
- C. All available links of the same type are used for replication
- D. All available links are used for replication

Correct Answer: A

QUESTION 3

What must be done before demonstrating Recovery Manager Central Express Protect?

- A. The storage array must be configured for file and block data
- B. The StoreOnce system must be set up with a fileshare
- C. A StoreOnce replication license must be activated
- D. A StoreOnce Catalyst license must be activated

Correct Answer: D

QUESTION 4

A storage architect is reviewing customer as-built documentation. The solution architect discovers that there are

Windows Server 2003 machines that will be virtualized in an ESXi 5.5 environment connected to an HPE 3 PAR StoreServ.

What should be considered in the MPIO implementation design?

- A. The HPE 3PAR array will handle load balancing on the hardware level
- B. HPE 3PAR Multipath I/O should be used for Microsoft Windows 2003
- C. MPIO will be handled natively by the ESXi host software
- D. MPIO must be set to use MRU

Correct Answer: B

QUESTION 5

Which technology allows HPE to maximize available capacity utilization of SSD drives?

- A. HPE 3PAR Global Sparing
- B. HPE 3PAR Adaptive Sparing
- C. HPE 3PAR Adaptive Optimization
- D. HPE 3PAR Distributed Sparing

Correct Answer: C
