QUESTION 1

A customer has thousands of proLiant and servers in their datacenter. The customer needs a tool that will help them firmware and drive updates.

Which ILO Amplifier feature should you emphasize during a conversation with this customer?

- A. support for 3par Federation
- B. support for ILO Federation
- C. Firmware management for integrity servers
- D. Integration with System Center and vCenter Server

Correct Answer: D

QUESTION 2

Match each Synergy component with the description of the functionality it provides.

Component	Functionality
Composer	management appliance responsible for assembling and re-assembling compute, storage, and fabric resources
Frame Link Module	management appliance responsible for operating system provisioning that enables true stateless computing
Image Streamer	module that provides a composable fabric
Virtual Connect SE 40Gb F8	provides services such as power, cooling, auto-discovery and inventory of all installed components

A. Answer:

Correct Answer: A

Composer = Management appliance responsible for assembling and re-assembling compute, storage and fabric resources
Image streamer = management appliance responsible for operating system provisioning that enables true stateless computing.
Frame Link Module = Provides services such as power, cooling, auto-discovery and inventory of all installed components
Virtual Connect SE 40GB F8 = module that provides a composable fabric

QUESTION 3
