QUESTION 3

A customer is looking to virtualize desktops and application access to provide better business continuance and disaster

recovery. They also need simplified deployment and the ability to scale out in the future. Which HPE platform should you recommend?

- A. Edgeline
- B. ProLiant DL
- C. Superdome Flex
- D. SimpliVity

Correct Answer: D

Reference: <https://h20195.www2.hpe.com/v2/getpdf.aspx/a00019351enw.pdf>

QUESTION 4

A customer is looking to replace their aging data center networking infrastructure with an agile, software-defined solution that will enable them to ensure that their mission-critical applications can always get the bandwidth they need. Which HPE solution should you recommend?

- A. StoreFabric
- B. Image Streamer
- C. OfficeConnect
- D. Composable Fabric Manager

Correct Answer: D

QUESTION 5

During an HPE SimpliVity solution presentation, a potential customer asks about the HPE SimpliVity RapidDR option in the Bill of Material. How should you respond?

- A. It allows configuring a high-availability solution between two sites for automatic failover and fallback in disaster recovery situations.
- B. It is required for a multi-site HPE SimpliVity configuration to send VM backups to remote clusters.
- C. It enables orchestration for site-to-site recovery to improve application availability during planned or unplanned events.
- D. It is a requirement to guarantee the 1-minute restore of a 1TB virtual machine.

Correct Answer: D

HPE guarantees the ability to restore a 1TB VM within one minute, meaning that the customer saved approx. 70% of time Reference: <https://veracompadria.com/en/simplivity-demystified/>
