QUESTION 1

A customer is concerned about security and compliance with regulations. Which benefit does an HPE hosted desktop solution provide?

- A. It automatically deploys patches to all desktops at the network edge.
- B. It ensures that all data remains securely in the data center.
- C. It includes security monitoring as a service as part of the solution.
- D. It embeds a silicon root of trust in every desktop.

Correct Answer: B

QUESTION 2

Which business sector is an ideal target for HPE Intelligent Edge solutions that help to transform the customer experience?

- A. hospitality
- B. government
- C. manufacturing
- D. shipping

Correct Answer: C

QUESTION 3

Which of the following is an appropriate delivery model or models for a customer workload or business requirement?

- A. HPE GreenLake cloud services
- B. Traditional solution
- C. Virtual events
- D. Agile innovation methods

Correct Answer: A

QUESTION 4

A customer tells you that virtualization does not provide the performance required for the company's workloads. Which benefit of HPE Hybrid IT solutions should you explain?

- A. HPE lets the customer maintain workloads/applications on Dare metal white providing much of the automation and flexibility associated with visualization.
- B. HPE has found that most performance issues with virtualization arise from insufficient remote storage, and HPE has industry leading storage solutions.
- C. HPE integrates with leading visualization vendors to enhance the efficiency of the visualization layer and boost compute there.
- D. HPE has developed a proprietary virtualization technology, which can support the performance requirements of the most demanding workloads.

Correct Answer: C

QUESTION 5

What is the current impact of big data and Hadoop on enterprise data centers?

- A. Hadoop is a new technology, and most enterprises are waiting to implement it until larger companies, such as Google, have demonstrated its effectiveness.
- B. Most companies have successfully implemented Hadoop already; you will find the most promising opportunities in moving customers from Hadoop to online transactional databases.
- C. Half of enterprise customers have implemented Hadoop, but most still experience issues, partially due to an infrastructure not designed to support big data.
- D. Most companies have found that Hadoop is less effective for handling big data; they prefer open-source solutions such as SAP HANA.

Correct Answer: C
