QUESTION 1

What is a feature of fully managed HPE OfficeConnect Switches?

A. They support backplane stacking, so one switch can manage the entire stack.

B. They allow full control over all ports and offer multiple configuration options.

C. They can be managed by either Aruba Central or Airwave.

D. Any one device can manage all others through SNMP management features.

Correct Answer: C

QUESTION 2

How can HPE Insight Online benefit customers?

A. saves them money by shifting monitoring tasks from internal IT to HPE support services

B. saves them time by providing a simple way to track warranty contracts

C. saves them time by comparing HPE products online with their equivalent competitive alternatives

D. provides great agility to IT teams by offering user on-demands provisioning

Correct Answer: D

QUESTION 3

How can HPE ProLiant servers help customers to reduce IT costs?

A. by providing up to 3 times more compute capacity than competitive systems.

B. by including a built-in HPE proprietary virtualization layer that enables customers to virtualize more quickly.

C. by supporting cartridges optimized for different workloads that customers can easily replace if their needs change.

D. by providing an out-of-the-boy Software as a Service (SaaS) service portal.

Correct Answer: A

QUESTION 4

How do UC applications tend to affect customer networks?

A. They introduce the need for dedicated firewall appliances connected to each edge switch.

B. They increase traffic at the network edge and increase speed requirements.

C. They increase the amount of latency that network devices can tolerate.

D. They make the types of traffic that flow through the network more uniform.

Correct Answer: A

QUESTION 5

A new Customer wants to purchase the first server for a small office environment. The server will support basic business applications such as resource and file sharing. Which server best suits these needs?
