QUESTION 1

What is a benefit of HPE Oneview?

- A. It simplifies and automates server lifecycle maintenance tasks such as firmware updates.
- B. It helps developers to obtain the tools and environments that they need through a self-service portal.
- C. It allows customers to manage their HPE GreenLakeflex Capacity subscription and other support services.
- D. It provides a single management platform for monitoring third-party applications in the HPE partner ecosystem.

Correct Answer: C

QUESTION 2

What is the way disruptive technologies are effecting the security landscape?

- A. Attackers are using Artificial intelligence to manipulate data so that companies cannot trust the integrity of the data.
- B. Internet of Things (IoT) devices are making it easier for companies to secure their edge.
- C. Ransomware attacks are no longer a threat because a majority of companies now patch their endpoints.
- D. Fewer attacks are being launched on infrastructure devices as attackers focus their attention on phishing and ransomware attacks.

Correct Answer: D

QUESTION 3

What is the key distinguishing feature that both HPE Nimble and HPE 3PAR offer?

- A. They both provide the highest levels of availability, including for disaster recovery.
- B. They include the industry's first Memory-Driven Flash with storage class memory (SCM) and NVMe.
- C. They are both deployed as part of a hyperconverged solution with built in data protection.
- D. They use a Data Virtualization Platform to improve the efficiency of data storage, backup, replication, and restore operations.

Correct Answer: A

QUESTION 4

What can you ask potential customers to determine if they are a good fit for intelligent storage solution from HPE?

- A. How many employees do you have?

- B. How much are you willing to spend to update your infrastructure?
- C. What services are currently running in the cloud, and which service do you run on-premises?
- D. What application are driving data growth, and how does that data get put into the system?

Correct Answer: D

QUESTION 5

What is a feature that makes HPE OneSphere stand out from the competition?

- A. It integrates with HPE InfoSight to provide lifecycle management for servers and networking.
- B. It can be combined with consumption-based funding models such as HPE GreenLake Flex Capacity.
- C. It is the first multi-cloud platform that is based on artificial intelligence (AI) and machine learning.
- D. It builds private cloud services using unique and proprietary HPE virtualization technologies.

Correct Answer: B
