QUESTION 3

DRAG DROP

Match the event log severity levels to their descriptions.

Select and Place:

SEVERITY

All
Critical
Info
Warning

DESCRIPTION

An event has occurred that does not require action to be taken and does not affect system performance. This level of event is useful for troubleshooting or for determining system trends.
An event has occurred that might impact system performance. Action will likely be necessary, but no damage will occur if the action is not taken immediately.
An event has occurred that requires immediate attention. Data loss or hardware damage may occur if action is not taken quickly. It also triggers email notification, defined on the ADMINISTRATION tab.
Events are shown regardless of severity. Manual intervention may or may not be needed.

Correct Answer:

SEVERITY

DESCRIPTION

Info	An event has occurred that does not require action to be taken and does not affect system performance. This level of event is useful for troubleshooting or for determining system trends.
Warning	An event has occurred that might impact system performance. Action will likely be necessary, but no damage will occur if the action is not taken immediately.
Critical	An event has occurred that requires immediate attention. Data loss or hardware damage may occur if action is not taken quickly. It also triggers email notification, defined on the ADMINISTRATION tab.
All	Events are shown regardless of severity. Manual intervention may or may not be needed.

QUESTION 4

How should the All-Flash shelf be connected to the controller shelf?

- A. Cable the All-Flash shelf directly to the last disk shelf.
- B. Cable the All-Flash shelf directly to the controller shelf.
- C. Use high performance SAS expanders.
- D. Cable the All-Flash shelf directly to the first disk shelf.

Correct Answer: B

QUESTION 5
