QUESTION 1

DRAG DROP

Match the general DR operations to their descriptions.

Select and Place:

Operation	Description
Demote	[ ] Graceful transition between two sites (no data loss)
Handover	[ ] Making the DR site primary with the data it has (possible data loss)
Promote	[ ] Clearing ownership status from a former source

Correct Answer:

Operation	Description
[ ]	Handover — Graceful transition between two sites (no data loss)
[ ]	Promote — Making the DR site primary with the data it has (possible data loss)
[ ]	Demote — Clearing ownership status from a former source

QUESTION 2

DRAG DROP

List in the correct order what the system will do when you perform a handover action.

Select and Place:

ACTION

Brings the newly replicated volumes online.
Replicates these snapshots to a downstream replication partner.
Reverses replication roles/direction.
Takes a snapshot of all associated volumes.
Takes all associated volumes offline.
Transfers ownership of the volume collection to the partner.

ORDER

Correct Answer:

ACTION

ORDER

Takes all associated volumes offline.
Takes a snapshot of all associated volumes.
Replicates these snapshots to a downstream replication partner.
Transfers ownership of the volume collection to the partner.
Brings the newly replicated volumes online.
Reverses replication roles/direction.
