QUESTION 1

The administrator has configured Server Profile Templates to use Virtual serial numbers. Where can you go in HPE OneView to see hardware-based serial numbers? (Choose two.)

- A. Server Profile Templates page
- B. Server Hardware page
- C. Server Profile page
- D. Server Hardware Types page
- E. Reports > Server inventory page.

Correct Answer: BC

QUESTION 2

You remove an HPE SY480 compute module from its bay and install a host bus adapter (HBA) into the compute module. When you install the module back into its original bay you notice that the server profile in HPE OneView is showing "unassigned". What is the reason for this?

- A. There is no connection configured for the HBA in the "Connections" section of the Server profile.
- B. The server hardware type is invalid.
- C. The Server Profile is inconsistent with its Server Profile Template.
- D. The Affinity is configured to "Device bay + hardware".

Correct Answer: B

QUESTION 3

Which HPE OneView logical resource is used to define default server connectivity characteristics, such as the preferred and maximum bandwidth?

- A. networks
- B. uplink set
- C. server profiles
- D. logical interconnect groups

Correct Answer: A

QUESTION 4

A customer creates a server profile template with two new volumes. The first is an 8 GB LUN for the boot drive. The second is a 500 GB LUN for the ESXi cluster shared storage. After the server profiles are assigned to the servers they each have an 8 GB drive and a 500 GB drive but the 500 GB drive isn't shared across the member nodes within the cluster. What is the most likely problem with the Server Profile Template?

- A. Mapping multiple LUNs aren't supported with HPE OneView Server Profile Templates.
- B. Both volumes were created as Private.
- C. The incorrect logical disk type was selected.
- D. ESXi can't share drives created dynamically via HPE OneView.

Correct Answer: B

QUESTION 5

A server administrator is integrating HPE OneView authentication with Active Directory and needs to add read-only access to members of a domain group. Which step is part of the procedure?

- A. Add the domain group as Organization Unit in Directory settings.
- B. Add the domain group as Base DN in Directory settings.
- C. Define the Active Directory domain and associated directory server(s) in Directory settings.
- D. Add the Active Directory server in Users and Group menus.

Correct Answer: D
