QUESTION 1

A large entertainment venue needs a location-based solution to enhance the guest experience, and you have recommended Aruba Meridian and beacons. What is one benefit of Meridian that you should emphasize?

- A. It integrates with Aruba ClearPass to track users' location and log suspicious activity, this improves the security of the venue and protects the customer's assets.
- B. It provides proactive testing of the performance of the guest user network, which ensures that guests have a good experience and are satisfied.
- C. It has built-in Bluetooth-based analytics, which give the customer more insight into how guests are using the space and interacting with the venue's mobile app.
- D. It delivers wayfinding services based on GPS. Because GPS is the best option for large indoor environments, guests have a better experience.

Correct Answer: C

QUESTION 2

How does Presence Analytics add value to the Aruba Central solution?

- A. It measures device dwell time and frequency of users at a given location to provide insights into customer engagements
- B. It uses Aruba beacons to provide location-based services, such as Blue Dot wayfinding, to increase customer satisfaction
- C. It uses machine learning analytics to identify network issues before they cause issues for users
- D. It provides complete visibility into the health of the network and end-user experience to reduce help desk tickets

Correct Answer: A

QUESTION 3

Which 8400 switch software tool helps network administrators avoid configuration errors?

- A. Aruba NetEdit
- B. Time-series database
- C. Zero-Touch Provisioning
- D. HPE Smart Rate Ports

Correct Answer: A

QUESTION 4

An SMB has ArubaOS switches and Aruba Instant APs. The company is growing and wants to simplify deploying and managing the infrastructure devices.

What should you explain?

- A. Aruba switches and APs can integrate with third-party SEIM solutions to simplify management.
- B. Aruba AirWave is specifically designed as a management tool for SMB customers such as this.
- C. Aruba Mobility Master (MM) can manage the Instant APs and simplify deployment.
- D. Aruba Central provides simple cloud-based management and Zero Touch Provisioning (ZTP).

Correct Answer: D

QUESTION 5

As customers deploy more Internet of Things (IoT) devices, what is one implication for potential Aruba customers?

- A. Continuous monitoring and NAC cannot detect IoT devices because they do not appear like mobile and BYOD devices on network management software.
- B. Most IoT devices introduce vulnerabilities because they don't utilize any standard set of security defenses.
- C. IoT devices require special management software because they use different wireless standards than the standards that most wireless devices are built for.
- D. IoT devices require cloud management and data storage, so customers need to have a hybrid infrastructure in place.

Correct Answer: B
