QUESTION 1

You are working on an IntroSpect Analyzer to fix an issue, and a restart is required after fixing the issue. Is this the correct procedure to restart? (From the Analyzer Menu navigate to Maintenance ->System>Cluster Start/Stop->Restart Cluster.)

- A. Yes
- B. No

Correct Answer: B

QUESTION 2

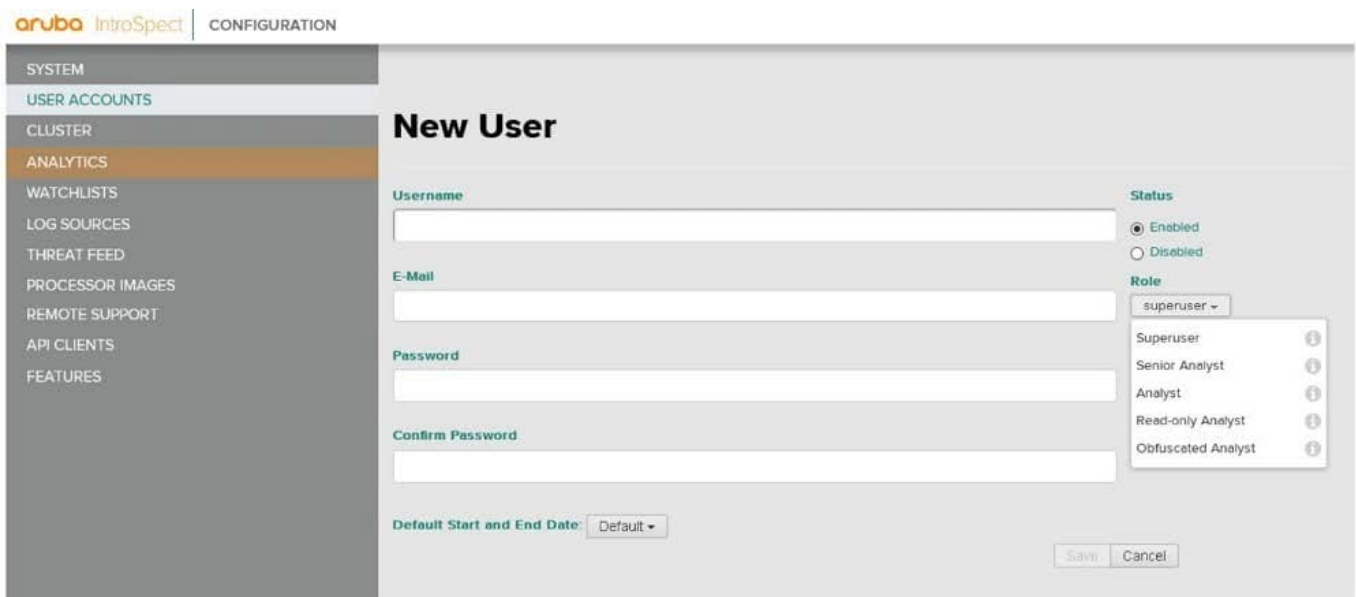

You are an administrator who made a few configuration changes in the IntroSpect Packet Processor, and a restart is required after those changes. Is this a valid method to restart the Packet Processor? (SSH into the Packet Processor, and log in as "admin" and issue the command #> shutdown -s now.)

- A. Yes
- B. No

Correct Answer: A

QUESTION 3

Refer to the exhibit.

Would this be a correct option when configuring a user account for a ClearPass to use to communicate with IntroSpect?

(The username must be the host name of the ClearPass server, and the email address needs to be the username on the ClearPass server.)

A. Yes

B. No

Correct Answer: B

QUESTION 4

A network administrator is looking for an option to set the maximum data retention period to 180 days in the IntroSpect Analyzer. Is this a correct statement about data retention in IntroSpect? (The default data retention period is set at 30 days, and this cannot be changed.)

A. Yes

B. No

Correct Answer: A

QUESTION 5

While investigating alerts in the Analyzer you notice a host desktop with a low risk score has been sending regular emails from an internal account to the same external account. Upon investigation you see that the emails all have attachments. Would this be correct assessment of the situation? (Your next step should be to find what user account logs into this desktop, and look at activity of their devices this user has access to.)

A. Yes

B. No

Correct Answer: B
