**QUESTION 1**

A company has a mixed wireless and wired Aruba solution. It wants to encrypt messages used to send configurations and other important messages to the APs carried outside the GRE tunnels. What can the company do to meet these goals?

- A. Deploy Aruba Meridian and integrate the AOS-Switches with it.
- B. Configure extended IP ACLs on the AOS-Switches to filter the traffic.
- C. Use PAPI enhanced security.
- D. Use tunneled node to send traffic through an Aruba Mobility Controller.

Correct Answer: D

QUESTION 2

Refer to the exhibit.

The network administrator wants to reduce failover time if a switch link in VLAN 100 goes down.

What should the administrator do?

- A. Configure echo mode BFD on VLAN 100 on all OSPF routing devices on VLAN 100.
- B. Lower the dead timer on the BDR of VLAN 100.
- C. Lower the hello timer only on the BDR of VLAN 100.
- D. Configure graceful restart on all of the OSPF routing devices on VLAN 100.

Correct Answer: A

QUESTION 3

How far do OSPF link state updates (LSUs) for Type 1 (Router) and Type 2 (Network) LSAs propagate?

- A. to every OSPF router in the local area
- B. to every OSPF router in all areas
- C. to every OSPF router in the local area and the backbone
- D. to every OSPF router in the network to which the LSU applies

Correct Answer: B

QUESTION 4

A network administrator needs to control traffic based on Ethertype and Class of Service. What should the administrator configure for this purpose?

- A. both a standard IP ACL and a standard MAC ACL
- B. both a standard IP ACL and an extended MAC ACL
- C. an extended IP ACL only
- D. an extended MAC ACL only

Correct Answer: D

QUESTION 5

An AOS-Switch enforces 802.1X authentication to an Aruba ClearPass server. A user connects but cannot receive network access, even though the ClearPass administrator finds an Access-Accept for the user on this switch. The switch administrator suspects that there is an issue with the dynamic settings returned by ClearPass.

Where should the administrator look for information about these settings?

- A. in the details for port-access clients
- B. in the detailed RADIUS server statistics
- C. in the interface statistics
- D. in the running-config for the interface

Correct Answer: A
