### QUESTION 1

Universal Containers has two integrations to Salesforce; System A requires read-only access to all Opportunity data while System B requires read-write access to all Accounts.

Which approach ensures compliance with the principal of least privilege?

- A. Utilize a single "Integration User" with the "Modify All data" profile setting enabled so that all integrations always have access to all data.
- B. Utilize separate credentials and profiles for each integration, one having "view All" to ties and the other having "Modify All" to Accounts.
- C. Use a single "Integration User" with profile settings restricted to "view All" for opportunity and "Modify All" for Accounts.
- D. Utilize separate credentials for each system with both credentials having the "modify all data" permission on the profile.

Correct Answer: C

---

### QUESTION 2

An integration architect needs to build a solution that will be using the Streaming API, but the data loss should be minimized, even when the client re-connects every couple of days.

Which two types of Streaming API events should be considered? Choose 2 answers

- A. Generic Events
- B. Change Data Capture Events
- C. PushTopic Events
- D. High Volume Platform Events

Correct Answer: BD

---

### QUESTION 3

A conglomerate is designing a Lightning Web Component (LWC) to display transactions aggregated from different sources. Their current system landscape is as follows:

1.

Transactions are created at any time through their various on-premise and cloud-based systems.

2.

All necessary transactions are replicated to a custom Transaction object in Salesforce. It is updated periodically so it only has a subset of the necessary transactions between updates.

3.

Middleware supports publish-subscribe interactions and provides RESTful Enterprise APIs that can retrieve transactions from on-premise and cloud-based systems. The company wants to address a usability concern regarding incomplete data displayed on the LWC component.

What should the Integration Architect specify so the LWC will be able to display all the required transactions?

- A. Use the Continuation class to call the Enterprise APIs and then process the response in a callback method.
- B. Let the Lightning Data Service with an ?ire adapter display new values when the custom object records change.
- C. Call the Enterprise APIs directly from the LWC's JavaScript code and redisplay the LWC on receipt of the API response.
- D. Publish a Platform Event, have the middleware subscribe and update the custom object on receipt of Platform Event.

Correct Answer: C

---

#### QUESTION 4

Universal Containers has a data warehouse system that collects information from upstream systems in order to do proprietary reporting. Every day there are several thousand record insertions and updates in Salesforce that might be a interest to this data warehouse. Reports in the data warehouse are run at the end of the month.

What is a recommended way to transfer record insertions and updates to the data warehouse?

- A. Use the SOAP API's getUpdated() method to retrieve changed record IDs, then retrieve records.
- B. Use scheduled Apex to do an Apex callout to the data warehouse.
- C. Use native Outbound message functionality to send a message with each record change.
- D. Use a trigger to do an Apex callout to the data warehouse with each record change.

Correct Answer: A

---

#### QUESTION 5

An organization needs to integrate Salesforce with an external system and is considering authentication options. The organization already has implemented SAML, using a third-party Identity Provider for integrations between other systems. Which use case can leverage the existing SAML integration to connect Salesforce with other internal systems?

- A. Make formula fields with HYPERLINK() to external web servers more secure.
- B. Make Apex SOAP outbound integrations to external web services more secure.
- C. A Make Apex REST outbound integrations to external web services more secure.
- D. Make an API inbound integration from an external Java client more secure.

Correct Answer: A
