- D. BIOS recovery boot can be used to recover the BIOS settings from the last known good configuration of the system.

Correct Answer: A

---

### QUESTION 3

Your customer is looking for new servers. Space is very limited; they have room for one new rack and want to add at least 30 servers. The servers need to be able to support E5-2600 v3 14 core processors, 768GB memory and 8 HDDs. Which of the following configurations would you recommend?

- A. HNS2600TP and H2216XXKR2.
- B. R2208WT2YS.
- C. R1208WTXXX.
- D. R1304WTXXX.

Correct Answer: C

---

### QUESTION 4

Which of the following tools can clone a system configuration (BIOS/BMC/FRU/SDR settings)? (Select ALL that apply).

- A. SYSCFG
- B. Rapid?Deployment Toolkit
- C. Intel Deployment Assistant
- D. Intel Multi-Server Manager
- E. Intel Active System Console
- F. Intel System Clone Console
- G. StorCLI

Correct Answer: AC

#### QUESTION 5

A customer has spent a long time on the phone with their reseller and the reseller is now talking to you about how to remotely access the RAID controller on an Intel® Server that has been correctly supplied and configured, with RAID Web Console 2. You have been told by your reseller that the server board in question has 4 on-board NICS. What will you recommend? (Select ALL that apply).

- A. Only clients on the same subnet as the highest No. NIC interface will be able to remotely managethe RAID Server via RWC2
- B. Suggest that the customer disable all network ports and only manage the RAID from the server directly
- C. If there is more than one Ethernet port on the server, access to the RAID information is only available on the highest No. NIC interface.
- D. Suggest that the customer disable all network ports except the highest and manage the RAID from the server directly

Correct Answer: AC
