### QUESTION 2

Which statement about metrics is CORRECT?

- A. Leading metrics ate difficult to measure, but easy to Influence
- B. Lagging metrics are easy to measure and to influence
- C. Legging metrics report what has been achieved
- D. Lagging metrics predict what a is likely to happen in the future

Correct Answer: C

Lagging metrics report what has been achieved by measuring the outcomes or results of past actions or activities. They are easy to measure but difficult to influence. They are useful for evaluating performance and validating hypotheses. Leading metrics predict what is likely to happen in the future by measuring the inputs or drivers of future outcomes or results. They are difficult to measure but easy to influence. They are useful for forecasting and influencing performance. References: ITIL 4 Leader: Digital and IT Strategy, page 83-84

### QUESTION 3

Which is the BEST approach to defining a vision and a strategy in an organization with multiple specialization divisions?

- A. Vision and strategy should be defined by the executive leader and communicated to me divisions
- B. Vision and strategy should be defined by the governing body and communicated to the divisions\| leaders

- C. Vision and strategy should be defined in collaboration with the leaders of the organization and division
- D. Vision and strategy should be defined in collaboration with the enterprise architects and consultants

Correct Answer: C

Vision and strategy should be defined in collaboration with the leaders of the organization and division to ensure alignment, coherence, and buy-in across the organization. This can help create a shared understanding of the goals, values, and direction of the organization and its divisions, as well as leverage the expertise and insights of different leaders. #### QUESTION 4

Which is NOT an essential consideration when developing a digital strategy?

- A. Understanding which systems will form the digital technology programme
- B. Understanding emerging technologies that could affect the organization
- C. Understanding how to identify potential opportunities
- D. Understanding the risks involved with digital opportunities

Correct Answer: A

Understanding which systems will form the digital technology programme is not an essential consideration when developing a digital strategy. It is a more detailed and technical aspect that can be defined later in the implementation phase. The essential considerations when developing a digital strategy are more focused on understanding the organization's vision, goals, values, customers, markets, competitors, opportunities, risks, and capabilities. References: ITIL 4 Leader: Digital and IT Strategy, page 5-6

#### QUESTION 5

An organization has established a clear vision for digital transformation and has started their transformation journey. They have documented all their value streams and started to improve these. They use technology appropriately to maximize customer experience and operational excellence. They understand and manage risks, and they have a comprehensive approach to identifying and using innovative ideas.

What else do they need for the digital transformation to succeed?

- A. Management of threats and opportunities
- B. Improved use of automation
- C. Management of staff skills and competence
- D. Linked processes and practices to value creation

Correct Answer: C

Management of staff skills and competence is what the organization needs for the digital transformation to succeed. This means that the organization ensures that its staff have the necessary skills and competence to support the digital transformation and deliver value to customers. This can involve training, development, coaching, mentoring,

recruitment, retention, and motivation of staff. References: ITIL 4 Leader: Digital and IT Strategy, page 68-69
