# Organization IT service provider IT services to Provides services to

CruiseAlong Cars CruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America; It has grown by acquisition over the last 20 years and has operations in over 50 countries. Each country has its own IT organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries.

Some of the issues that CruiseAlong Cars needs to address include: Inefficiencies caused by the current IT structure Inconsistency of IT services when employees are travelling CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share. DriveYou.com This is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevegon State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include: Better structure and accountability around their work practices Compliance with safety and other regulatory requirements. University of Bachstein (UoB) The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia; In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a `walk-in\\' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university\\'s administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT\\s internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. CruiseAlong Cars central IT organization wants to implement a new ITSM toolset to replace their outdated system. The new ITSM toolset will be used by all CruiseAlong Cars\\' IT departments and their service desks. The business case for the improvement has not been made yet. This could include financial contribution from various countries. The overall goal of the initiative is to achieve efficiencies and cost reductions through the centralization of processes and data for reporting across country-based IT departments.

Which row of information BEST supports the business case?

A. Key stakeholders: Central IT CIO Selected country CIOs Baseline value: Time taken to produce weekly reports = 1

2024 Latest geekcert ITIL-PRACTITIONER PDF and VCE dumps Download

day Expected result: Time taken to produce weekly reports = 0.5 day

- B. Key stakeholders: Central IT CIO All country CIOs Baseline value: Number of incorrectly categorized incidents per month = 50 Expected result: Number of incorrectly categorized incidents per month = 30
- C. Key stakeholders: Central IT CIO Selected country CIOs Baseline value: Total IT headcount = 470 Expected result: Total IT headcount = 500
- D. Key stakeholders: Central IT CIO All country CIOs Baseline value: Average cost per incident = \$12.50 Expected result: Average cost per incident = \$9.00

Correct Answer: D

CruiseAlong Cars is planning to improve the provision and support of IT services for senior executives who travel. They will deploy new mobile technology to enhance the user experience. They will also improve the incident management and request fulfilment processes and standardize these across service desks. They are taking an iterative approach and have released the first iteration of improvements. A project manager has been appointed for this improvement initiative. The project manager is creating a set of metrics to measure the service provided to senior executives once the improvements have been made. There must be a balance of technology, process and service metrics.

	Metric	O2177	den de
1	Average number of incidents resolved per agent per day	Caura	(5)
2	% of time that mobile users can send and receive emails	o P	State State
3	% availability of mobile access servers	ON.	C.
4	Average cost of resolving incidents	Qu	Marin Spin
5	Mean time between failure of mobile devices	Cotto	Cel
6	Length of time to provide senior executives with new mobile	device	Mole Call

#### https://www.geekcert.com/itil-practitioner.html 2024 Latest geekcert ITIL-PRACTITIONER PDF and VCE dumps Download

Which set of metrics provides a suitable balance?

A. 1, 3 and 4.

B. 1, 5 and 6.

C. 2, 3 and 5

D. 2, 4 and 6

Correct Answer: C

Centrally owned services include a `walk-in\\' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university\\'s administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area; Some of the issues that the UoB needs to address include: Complete the centralization and consolidation of IT Manage growth and increasing IT demand Demonstrate value through competitive, responsive and transparent services Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars.Some of the issues that GCITS needs to address include: Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data; The NSDoT\\'s internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. The IT department at the UoB does not have a service catalogue or a service portfolio, and there is limited understanding of the structure and value of services in the organization. Many of the individual departments and faculties are resistant to the CIO\\'s vision for global services. They have decided to appoint business relationship managers (BRMs) who will be expected to address many of the challenges, in order to support collaboration and help to define global services. Some business analysts are going to be transferred to these new positions.

Which is the BEST way for a new BRM at the UoB to understand their customers\\' needs?

- A. Run a workshop to define the structure and value of IT services.
- B. Visit each customer in their normal place of work to see what they do.
- C. Issue a detailed questionnaire to all customers to discover their expectations.
- D. Establish current performance levels and match the new service to them.

Correct Answer: D
