### QUESTION 1

An organization is undergoing a significant cultural change as a result of introducing Agile and DevOps practices. How can managers use Toyota Kata to help employees adjust to these different ways of working?

- A. By encouraging the practicing of routines to unlearn old habits and learn new ones
- B. By creating detailed plans that predetermine how to approach large changes
- C. By making hard decisions for the teams and providing step-by-step guidance
- D. By encouraging widespread changes that involve the teams starting from scratch

Correct Answer: A

---

### QUESTION 2

An organization supports the users of its services using a tiered structure. There are many specialists in the second- and third-line resolution teams who have worked for the organization for a long time. The organization is in the process of deploying many changes to services. This is likely to result in a large number of complex incidents. In addition, there are long backlogs of work for the second and third-line resolution teams to complete.

Which is the BEST approach or technique to resolve this situation?

- A. Service integration and management
- B. Machine learning
- C. Swarming
- D. An information model

Correct Answer: C

---

### QUESTION 3

An organization is attempting to improve the design, development and transition of new services. It recognizes that some ways of working are not focused on creating value.

Which is an example of a working practice that the organization should STOP?

- A. Defining the features and functionality of services by relying on the developers' previous experience of designing similar systems for customers
- B. Involving users, customers and other stakeholders when communicating desired outcomes in the form of user stories
- C. Designing systems with the continual involvement of customers to ensure that any changes in requirements are understood as early as possible

D. Involving customers and users in testing activities to understand whether the service meets the customers' and users' expectations

Correct Answer: A

#### QUESTION 4

A web hosting provider has decided to apply more of a 'shift left' approach to service support. The provider knows that users like video tutorials as well as communicating via instant messaging and social networks.

What should the service provider use to expand how users access support and improve the user experience?

- A. Omnichannel management
- B. Service level management
- C. Service interaction method
- D. Benefits dependency network

Correct Answer: A

#### QUESTION 5

An organization is designing a survey to assess the needs and expectations of its staff.

What is this an example of?

- A. CI/CD
- B. Integration and data sharing
- C. Customer-orientation
- D. Employee satisfaction management

Correct Answer: D
