### QUESTION 1

You are designing a Data Center Interconnect (DCI). You must ensure that the local PE learns the local MAC addresses and then distributes these learned MAC addresses to the remote PEs using the control plane.

In this scenario, which DCI solution will satisfy the requirements?

- A. Ethernet VPN
- B. CCC
- C. BGP Layer 2 VPNs
- D. BGP Layer 2 circuits

Correct Answer: C

---

### QUESTION 2

When considering environmental conditions in a data center, which two statements are correct? (Choose two.)

- A. The device air intake should face the cold aisle.
- B. Relative humidity that is too low can cause water condensation.
- C. Device exhaust fans should face the cold aisle.
- D. The temperature should be measured at multiple heights.

Correct Answer: AD

---

### QUESTION 3

During a design requirements gathering meeting for a new data center, your customer indicates that traffic to and from corporate HR systems is highly sensitive and that the network design should ensure that these systems are protected from unauthorized access.

Which three design actions would satisfy this requirement? (Choose three.)

- A. Disable routing to and from HR systems.
- B. Place HR systems in a unique VR.
- C. Use FBF to steer HR traffic to security devices.
- D. Put all HR systems in dedicated racks.
- E. Enable a dedicated VLAN for HR systems.

Correct Answer: BCE

---

#### QUESTION 4

You are asked to design an IP fabric that uses the same routing protocol in both the underlay and overlay networks.

Which routing protocol will satisfy this requirement?

- A. MPLS
- B. BGP
- C. IS-IS
- D. OSPF

Correct Answer: B

---

#### QUESTION 5

Which two elements are available to implement security within a vRouter managed by Contrail? (Choose two.)

- A. Security Policy
- B. Security Group
- C. IPsec VPN
- D. Network Policy

Correct Answer: BD
