QUESTION 1

A global dashboard filter and the filter on a tile within that dashboard conflict because the global dashboard filter and the individual tile filter are based on the same field with different filter values.

What happens in this situation?

- A. The filter values of both filters will combine in an additive manner and both filters will apply.
- B. The individual tile filter will override the global dashboard filter.
- C. The global dashboard filter will override the individual tile filter.
- D. The dashboard will break and warn the user that there are conflicting filter values.

Correct Answer: C

QUESTION 2

Two weeks into the third quarter, an analyst needs to determine the total order count per month for only the first two quarters.

How should the analyst filter the query?

- A. Created Month "is in the first 2 quarters"
- B. Created Month "is in the past 2 complete quarters"
- C. Created Month "is in the past 2 quarters"
- D. Created Month "is in the last 6 months"

Correct Answer: C

QUESTION 3

An analyst creates a dashboard that shows sales at an aggregate and then an individual level. This dashboard is slow to run, and the analyst sees a warning about how load times may be impacted in dashboards with more than 25 tiles.

What should the analyst create to make sure all data sources in this dashboard are connected but still load quickly?

- A. Dashboard filter to specify which individual data shows
- B. Two dashboards, one with aggregate and one with individual data
- C. Two dashboards with a text tile to hyperlink from one dashboard to the other
- D. Folder with all dashboard tiles for aggregate data and individual data.

Correct Answer: A

QUESTION 4

A CEO wants to receive a daily email with the existing executive dashboard to review on a mobile device on the way to the office.

What should the analyst do to optimize the dashboard for mobile viewing?

- A. Schedule the dashboard as HTML to adjust automatically.
- B. Schedule the dashboard with the PDF format Use single column layout.
- C. Create a mobile-friendly version of the dashboard by rearranging the tiles, and schedule the dashboard.
- D. Schedule the dashboard with PDF paper size set to Fit Page to Dashboard.

Correct Answer: B

QUESTION 5

An analyst wants to schedule a dashboard in a way that makes it easier for viewing on a mobile device or for viewing a printout of the dashboard.

How can the analyst set up a schedule to accomplish this?

- A. Check Use single column layout in the Advanced options section of the scheduler.
- B. Check Expand tables in the Advanced options section of the scheduler.
- C. Select the paper size Tabloid with orientation Landscape in the Advanced options section of the scheduler.
- D. Select Run schedule as recipient in the Advanced options section of the scheduler, and edit the recipient's user attribute preferences to be individual_images.

Correct Answer: A
