QUESTION 1

You need to configure the manufacturing groups for the standard model bicycle and the new limited-edition bicycle for the summer season.

Which object should you use?

- A. Operating units
- B. Departments
- C. Commerce channels
- D. Legal entities
- E. Teams

Correct Answer: A

Explanation:

The standard model and limited-edition bicycle teams are separate operating units within the manufacturing division. Financials are tracked and reported separately even though they are produced and sold in the same sales channels.

QUESTION 2

A manufacturer sends wiring harnesses to a vendor to be soldered to a connector. You have created the subcontracting process in the bill of materials (BOM) and route to account for the items sent to the vendor.

You create separate subcontracting purchase orders to account for the service. You attempt to add the service item to the BOM. The system generates an error.

You need to set up a new item model group for the service item.

Which three actions should you perform? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Create a new item model group and clear the stocked product option.	
Add the service item and set the new inventory model group in the BOM to FIFO.	
Assign the item model group and select the stocked product option.	
Create a new item model group and select the stocked product option.	
Add the service item to the BOM.	

Correct Answer:

Create a new item model group and clear the stocked product option.

Add the service item and set the new inventory model group in the BOM to FIFO.

Create a new item model group and select the stocked product option.

Assign the item model group and select the stocked product option.

Add the service item to the BOM.

QUESTION 3

You need to enable the features and configuration keys for the firepits.

Which two features should you enable? Each answer presents part of the solution.

NOTE: Each correct selection is worth one point

- A. Engineering attributes
- B. Change management for process manufacturing
- C. Engineering product variants
- D. Engineering change management
- E. Production floor execution management

Correct Answer: AD

QUESTION 4

HOTSPOT

A company implements Dynamics 365 for Finance and Operations.

You run a master plan each week.

You need to resolve the issue in the scenario.

What should you do? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Production orders do not appear in the Production control module.

▼
Firm the planning production orders.
Rerun master planning.
Increase the coverage time fence.

You must ensure visibility to all resources during planning processes.

▼
Edit the plan. Set the Scheduling method to Job scheduling.
Increase the coverage time fence on the plan.
Assign a higher ranking to the sequence group assigned to items.

Correct Answer:

Production orders do not appear in the Production control module.

▼
Firm the planning production orders.
Rerun master planning.
Increase the coverage time fence.

You must ensure visibility to all resources during planning processes.

▼
Edit the plan. Set the Scheduling method to Job scheduling.
Increase the coverage time fence on the plan.
Assign a higher ranking to the sequence group assigned to items.

QUESTION 5

HOTSPOT

You are the production scheduler at a manufacturing company. You schedule estimated production orders and ensure that capacity is used efficiently.

You have an order that must be scheduled at the resource group level and scheduled backward from the delivery date specified on the production order.

You need to schedule the order.

Which scheduling parameters should you use? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Parameter

Selection

Scheduling type

	▼
Job scheduling	
Operations scheduling	

Scheduling direction

	▼
Backward from delivery date	
Backward from action date	
Backward from futures date	
Backward from scheduling date	

Correct Answer:

Answer Area

Parameter

Selection

Scheduling type

	▼
Job scheduling	
Operations scheduling	

Scheduling direction

	▼
Backward from delivery date	
Backward from action date	
Backward from futures date	
Backward from scheduling date
