QUESTION 1

You need to track the cost of donating leftover flour and sugar to local food banks. Which production option should you configure?

- A. by-product
- B. scrap percentage
- C. batch attribute
- D. catch weight

Correct Answer: A

Explanation:

Leftover flour and sugar from production runs are collected, packaged, and donated to local food banks if the amount is too small to use in other runs.

By-products are materials of value that are produced as a residual of, or incidental to, the production process. By-products can be recycled, sold as is, or used for other purposes. You can set up by-products to contribute costs, burden, to the

overall production process.
