### QUESTION 1

A company manufactures and sells custom bicycles. Customers can customize some components to create a custom bicycle.

You need to configure sales orders to support the customization allowed for custom bicycle orders.

What are two possible ways to achieve this goal?

Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Create a sales order for the bicycle and make configuration selections on the order for the upgraded seat and handlebars. The production order will be automatically generated with the correct seat and handlebars.
- B. Create a sales order for the bicycle and add separate line items for the upgraded seat and handlebars.
- C. Create a sales order for the bicycle. Modify the production order after it has been reported as finished to delete the standard seat and handlebars and add the upgraded seat and handlebars.
- D. Configure the product to allow for the seat and handlebars selection to be defined at order creation, automatically adding an up charge to the sales price.

Correct Answer: AD
