QUESTION 1

A company has multiple legal entities. The company is implementing Dynamics 365 Supply Chain Management.

Purchase orders are generated from multiple legal entities. To reduce shipping costs, the purchase orders must be consolidated into multiple shipping containers of the same type and placed onto a single vessel for inbound receipt into the

country/region.

You need to configure the path of the shipping containers.

What should you configure?

- A. Journey
- B. Voyage
- C. Route
- D. Route segment

Correct Answer: B

Explanation:

Shipping containers and folios are linked to a voyage. Purchase lines are linked to a shipping container.

Note: A voyage typically represents a vessel. However, depending on your practices and procedures, it can represent a vendor, a purchase order, or some other item that makes sense for your organization.

The All voyages page provides voyage details, delivery and costing information, and information about items, purchase orders, and transfer orders.

QUESTION 2

Your company uses a Dynamics 365 Supply Chain Management system.

You have been tasked with configuring an agreement that gives clients a specified discount per unit if they buy a certain amount of a particular item.

The parameters are as follows:

51 to 100

Correct Answer: B

QUESTION 3

A company is considering using Planning Optimization instead of the built-in master planning engine. What are three benefits of Planning Optimization? Each correct answer presents a complete solution.

- A. It is a multitenant service.
- B. It has multiple instances.
- C. It is hyper scalable.
- D. It has a single instance.
- E. It is single threaded.

Correct Answer: AC

QUESTION 4

You are implementing Dynamics 365 Supply Chain Management for a company that uses bill of materials (BOM) templates to expedite setup in the system.

A line must be removed from the BOM, but the system does not allow this.

You need to determine why you are unable to perform this deletion.

Why are you unable to delete the line?

- A. The BOM template version has already been saved.
- B. The local version of the BOM template has been associated to a service object.
- C. The local version of the BOM template has been modified.
- D. The BOM template has been associated to a service object.

Correct Answer: D

QUESTION 5

HOTSPOT

A company uses outside carrier services for inbound and outbound deliveries.

Carrier services must be scheduled so that all trucks do not show up at the same time.

You need to configure the c module to schedule the loads.

How should you set up dock appointments? To answer, select the appropriate options i the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Select the load.

	▼
Select Open Load.	
Select Closed Load.	
Select Shipped Load.	
Select Closed Container.	

Create the appointment.

	▼
Create an appointment rule and firm the appointment.	
Create and close an appointment.	
Group the sales orders into a container.	
Firm the load for shipment.	

Correct Answer:

Answer Area

Select the load.

	▼
Select Open Load.	
Select Closed Load.	
Select Shipped Load.	
Select Closed Container.	

Create the appointment.

	▼
Create an appointment rule and firm the appointment.	
Create and close an appointment.	
Group the sales orders into a container.	
Firm the load for shipment.
