QUESTION 1

DRAG DROP

An organization is implementing Dynamics 365 Finance.
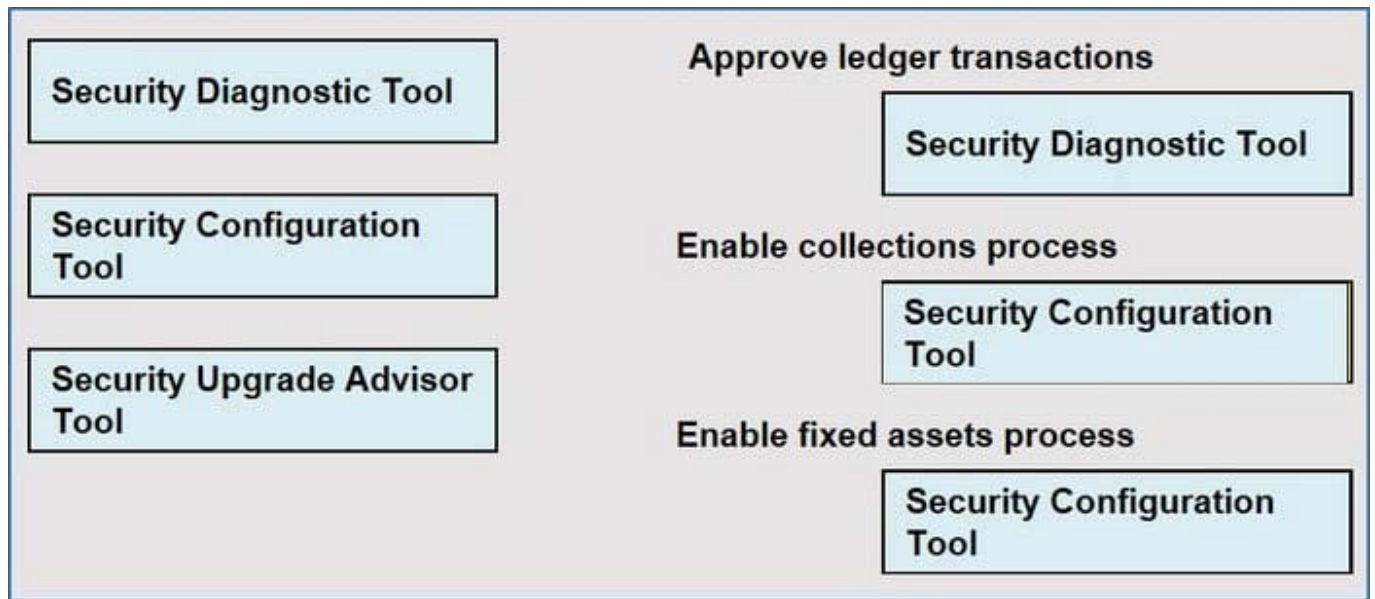

You need to assign security roles.

Which tools should you use? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Security Diagnostic Tool		Approve ledger transactions
		Tools
Security Configuration Tool		Enable collections process
		Tools
Security Upgrade Advisor Tool		Enable fixed assets process
		Tools

Correct Answer:

QUESTION 2

You need to recommend a solution to send notifications to club members and non-members. What should you recommend?

A. Use Dynamics 365 Commerce.

B. Use Microsoft Outlook to send emails.

C. Implement alerts.

D. Use Power BI to generate reports.

E. Implement Dynamics 365 Customer Service SMS integration.

Correct Answer: E

QUESTION 3

You need to report the environment structure and tenants. Where must the tenants be reported?

A. Go-live checklist

B. Azure DevOps

C. Project onboarding

D. Solution blueprint review

Correct Answer: A

Note: Once user acceptance testing (UAT) has been completed, the project manager must report the number of tenants for production to Microsoft.

Go-live Readiness Review prerequisites The project team should validate solution readiness. The following prerequisites must be met before the Go-live Readiness Review with Microsoft can be initiated. The production environment can be deployed after the Go-live Readiness Review with Microsoft has been successfully completed.

*

User acceptance testing (UAT) and performance testing have been completed or almost completed in a Tier-2 (or higher) environment.

*

The environment version that is planned for the go-live complies with the Software lifecycle policy.

*

The environment version that is planned for the go-live complies with the Software lifecycle policy.

*

All licenses that are required for go-live have been purchased in the correct tenant.

*

Etc.

QUESTION 4

HOTSPOT

A midsize company is enrolled in the self-guided FastTrack program. The company is preparing a Dynamics 365 Supply Chain Management implementation to go Irve.

You need to complete the prerequisites for the Go-live checklist.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement

Identify best practice violations in the development environment.

Perform user acceptance testing (UAT).	▼
Generate a Customization Analysis Report (CAR).	
Perform user acceptance testing (UAT).	
Complete performance testing.	
Run the Subscription estimator tool.	

Complete setup for all milestones in Lifecycle Services (LCS).

Enter a Go-live date.	▼
Enter a Go-live date.	
Enter a cutover date.	
Enter a user acceptance testing (UAT) date.	

Correct Answer:

Answer Area

Requirement

Identify best practice violations in the development environment.

Perform user acceptance testing (UAT).
Generate a Customization Analysis Report (CAR).
Perform user acceptance testing (UAT).
Complete performance testing.
Run the Subscription estimator tool.

Complete setup for all milestones in Lifecycle Services (LCS).

Enter a Go-live date.
Enter a Go-live date.
Enter a cutover date.
Enter a user acceptance testing (UAT) date.

Box 1: Perform user acceptance testing Go-live Readiness Review prerequisites The project team should validate solution readiness. The following prerequisites must be met before the Go-live Readiness Review with Microsoft can be initiated. The production environment can be deployed after the Go-live Readiness Review with Microsoft has been successfully completed.

*

 User acceptance testing (UAT) and performance testing have been completed or almost completed in a Tier-2 (or higher) environment.

*

 Etc.

Box 2: Enter a Go-live date

The go-live date in LCS correctly represents the go-live date that you\'re targeting. This date is the date when end users will start live operations, not cutover activities.

QUESTION 5

You are preparing a proof of concept environment using Dynamics 365 Finance.

You need to analyze the results generated from the Regression suite automation tool (RSAT).

Which Lifecycle Services tool should you use to store the RSAT testing files?

A. Asset library

B. Business process modeler

C. Usage profiler

D. Methodologies

Correct Answer: B
