QUESTION 1

A client is implementing Dynamics 365 Finance.

You need to determine a testing solution to validate performance of critical business processes in the organization.

Which two tools should you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Task Recorder
- B. SysTest
- C. PerfSDK
- D. Regression suite automation tool

Correct Answer: AC

QUESTION 2

A company is implementing Dynamics 365 Finance. The company plans to implement a self-service environment.

The golden configuration and master data have been copied to the user acceptance testing (UAT) environment. The company is ready for a cutover.

You need to move the UAT configuration and master data to the production environment. What should you do?

- A. Import the database from Lifecycle Services (LCS).
- B. Create a service request to move the sandbox environment to the production environment.
- C. Refresh the database from Lifecycle Services (LCS).
- D. Create a service request for the environment deployment.

Correct Answer: C

Perform master data migration

Now that the UAT environment is hydrated with the golden configuration, you can begin to migrate master data.

Self-service

In LCS, open the Full details for the production environment to load the Environment page.

In the Maintain menu, select Move database.

For the operations options, select Refresh database. In the Source environment, select the sandbox where your golden configuration is. Note the important instructions found on the Refresh database page for this operation. Select the check

box to confirm that you understand this operation will overwrite the production database. The operation starts immediately after submitting the request.

QUESTION 3

A company plans to implement Dynamics 365 Finance.

The company's current system contains sales tax-related data.

You need to design a solution that sequences the transfer of sales tax codes and sales tax groups. What should you do?

- A. Design a data migration scenario.
- B. Write customization requirements.
- C. Analyze data integration points.
- D. Design user acceptance testing processes.

Correct Answer: A

QUESTION 4

DRAG DROP

Company policy restricts employees from filling expense reports for the reimbursement of alcoholic beverages.

You need to recommend a solution that checks all expense reports for this requirement.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Create a new policy rule for expense keywords rule type.

Select table name, field name, and Prohibited keywords.

Create an audit policy for a legal entity.

Create an audit policy and add the Prohibited keywords.

Create a new policy rule for Prohibited keywords rule type.

Answer Area

Correct Answer:

Actions

Create an audit policy and add the Prohibited keywords.

Create a new policy rule for Prohibited keywords rule type.

Answer Area

Create a new policy rule for expense keywords rule type.

Select table name, field name, and Prohibited keywords.

Create an audit policy for a legal entity.

QUESTION 5

Fourth Coffee plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company owns and operates the following divisions:

Division	Action
Production	Packages and roasts coffee beans
Distribution	Delivers products to market

You need to ensure that Fourth Coffee can report financial results by division. Which strategy should you recommend?

- A. Create two legal entities, create one warehouse and associate the financial dimension to the warehouse.
- B. Create one legal entity with one site that has two warehouses. Associate the financial dimensions to the warehouses.
- C. Create two legal entities, create one site and associate a financial dimension per company.
- D. Create one legal entity with two sites. Associate financial dimensions to sites.

Correct Answer: D
