QUESTION 1

You are working for a client in Microsoft Dynamics 365 for Finance and Operations. You design and build a custom package, and upload it to the Asset library in Lifecycle Services (LCS).

You need to apply the custom package to the client's Tier 2 environment for testing by generating a runbook.

Which two files are required to generate the runbook? Each correct answer presents part of the solution.

- A. the topology data file
- B. the service model file
- C. the hotfix installation information file
- D. the development installation service model data file

Correct Answer: AB
